GitHub: <https://github.com/allanXQ>  
Nairobi, Kenya

An energetic and self-motivated professional, confident and creative person with proven skills in setting and achieving goals independently and as a team player. Efficient in meeting deadlines with an ability to prioritize and accomplish multiple tasks without compromising on efficiency. Good communication, analytical, and leadership skills with tremendous problem-solving abilities. Able to analyze and suggest solutions for optimum results.

## WORK EXPERIENCE

---

### Software Developer(MERN)

Spraxa Solutions Pvt Ltd, Dec 2022-Current

Uttar Pradesh, India(Remote)

- Assisted in the development of robust web applications utilizing the MERN (MongoDB, Express.js, React, Node.js) stack, resulting in a 15% improvement in application performance.
- Collaborated with senior developers to understand complex application requirements and contributed to efficient code solutions.
- Streamlined the codebase in collaboration with the team, which led to a 10% reduction in application load time and enhanced user experience.
- Proactively identified and fixed bugs, leading to a 20% decrease in customer-reported issues.
- Participated in regular code reviews, ensuring adherence to best practices and company coding standards.
- Actively contributed in sprint planning and retrospectives, offering insights that led to more efficient development cycles.

### Full Stack Developer

Vesta Systems, Jan 2021 - Nov 2022

Bungoma, Bungoma Kenya

- Designed, developed, and maintained full-stack applications, ensuring seamless integration between frontend and backend components.
- Played a pivotal role in product development, taking products from conception to launch, in alignment with client requirements and business goals.
- Contributed to debugging and issue resolution, improving system uptime by 25%.
- Collaborated closely with the design team to implement intuitive and responsive web designs, enhancing user engagement by 30%.

### Full Stack Developer Intern

Vesta Systems, Jan 2020 - Dec 2020

Bungoma, Bungoma Kenya

- Supported senior developers in creating scalable application components, leveraging diverse web technologies.
- Developed and executed unit tests, reinforcing the stability and reliability of key application features.
- Engaged in brainstorming and ideation sessions, suggesting solutions that were implemented in two major projects.
- Gained comprehensive exposure to the software development lifecycle, from requirement analysis to deployment.

## SKILLS

---

Javascript	HTML	AWS
Node JS	CSS	Git/Github
React JS	Tailwind CSS	CI/CD
Typescript	Material UI	Agile
Next JS	PHP	Jest
Mongo DB	Python	
Mysql	Django	

## EDUCATION

---

**Bachelor of Commerce**-2018-2022

Kabarak University

**Software Engineering**-2023-2024

ALX Africa

## CERTIFICATIONS

---
