SKILLS

Core Development: JavaScript, TypeScript, Python, Node.js, React, SQL (PostgreSQL, MySQL), NoSQL (MongoDB)

Frontend: React, Next.js, Angular, Tailwind CSS, Material UI, Redux, HTML, CSS

Backend & Cloud: Node.js, Express, AWS, Docker, Firebase, Vercel, Laravel

Practices & Tools: Git/GitHub, CI/CD (GitHub Actions), Unit & Integration Testing, Agile, Database Design, Figma

RELEVANT EXPERIENCE

Savannah Informatics, Nairobi, Kenya

Software Engineer, September 2024 – Current

- Developing and maintaining healthcare informatics platforms using Angular, supporting improved access to health data and services.
- Collaborating closely with backend developers, designers, and project managers to deliver new features aligned with user needs.
- Proactively monitoring and debugging applications using Sentry, reducing system downtime and improving performance.
- Writing and maintaining unit and integration tests to enhance code reliability and prevent regressions.
- Optimizing frontend workflows and implementing performance enhancements, reducing page load times and improving efficiency.

Spraxa Solutions Pvt Ltd, Uttar Pradesh, India(Remote)

Software Developer, Dec 2022 – September 2024

- Collaborated with designers to add new features to our React frontend applications.
- Worked closely with global cross-functional teams to build and maintain new products, .
- Designed and implemented scalable database models and optimized queries to support large datasets.
- Developed Node.js applications and services to improve speed, scalability, and reliability of client systems.
- Implemented security measures and data protection protocols to safeguard sensitive information.
- Mentored junior developers on JavaScript frameworks and best practices, supporting team growth.

Vesta Systems, Bungoma, Kenya

Software Developer, Feb 2021 - Dec 2022

- Built RESTful APIs and WebSocket servers using Node.js, TypeScript, and PostgreSQL to power real-time applications.
- Developed features for SaaS products in the e-commerce and fintech industries, deployed on AWS and serverless architecture.
- Implemented CI/CD pipelines with GitHub Actions, streamlining deployments and reducing release cycles.
- Created and maintained unit tests to ensure reliability of core application features.
- Collaborated with stakeholders to align technical development with company goals.

Vesta Systems, Bungoma, Kenya

Software Developer Intern, Jan 2020 - Feb 2021

- Facilitated the integration of modern JavaScript frameworks into existing projects, enhancing feature richness and user experience.
- Contributed to all phases of the software development life cycle, supporting the launch of three significant projects.
- Translated user requirements into functional code, improving product development and user satisfaction.

- Elevated client satisfaction by providing technical support.

EDUCATION

ALX Africa, Nairobi, Kenya
Software Engineering, Jan 2020 - Dec 2020

Kabarak University, Nakuru, Kenya
Bachelor of Commerce, May 2018-Dec 2022
